# MEDIC OIL-FREE COMPRESSORS

[www.pilotair.com.au](http://www.pilotair.com.au)

## DR. SONIC SERIES

Suitable to be placed at practice areas, where noise level should be kept at a minimum.

## FEATURES

- 100% Pure Oil-Free Air
- Oil-less design ensures no oil carry over and residues
- Specially designed shroud filled with soundproofing material and combined with internal cooling fan results in a compressor with the lowest noise ratio (d(B)A vs Input Power) on the market
- Model Codes FM and ES respectively feature single and twin tower absorption dryers for condensate free, dry air
- High-thickness tank inner coating made with anti-oxidant epoxy paint which makes air free of any smell
- Low noise level - Insulated by a multiple stage anti vibration damping system to reduce noise and allow vibration free operation.
- Internal oxidation proofed protection
- Secure Starting – allows compressor to restart with no problems even after a power failure
- High performance, trouble free operation, long life
